**Product Catalogue**

## Your Source for Authentic Italian Espresso

**Crafted with passion and dedication:** Inspired by Lugano, Switzerland, a city known for its elegance and influenced by neighboring Italy, Lugano Caffè brings you authentic Italian espresso with a touch of Swiss precision.

**Unwavering commitment to quality:** We use only the finest roasted coffee beans and advanced roasting techniques to create an exceptional espresso experience in every cup.

**The perfect choice for coffee connoisseurs:** Lugano Caffè is synonymous with excellence, authenticity, and innovation in the world of coffee. We are committed to delivering the perfect cup, making us the ideal ambassador of Italian coffee culture for discerning coffee lovers everywhere.

# A Future-Oriented Packaging Solutions

Protecting You and the Environment

At Lugano Caffè, we believe in a future where exceptional coffee and environmental responsibility go hand in hand. That's why we utilize fully recyclable, 100% compostable, and biodegradable packaging materials. Enjoy our delicious espresso guilt-free, knowing you're making a positive impact on the planet.

VEGANFACTORY

## An Innovative Packaging Philosophy

Lugano Caffè redefines the espresso experience with a groundbreaking approach to packaging. We transcend tradition with a fusion of modern materials and captivating designs, ensuring that the presentation is as remarkable as the coffee it holds. Our commitment extends beyond functionality, transforming each package into a work of art.

## Hot Air Roasting

In the world of coffee, consistency is paramount in supplier selection. That's why Lugano Caffè utilizes the innovative Hot Air Roasting method.

Unlike traditional drum roasting, Hot Air Roasting gently suspends beans in a precisely controlled flow of hot air. This meticulous process intensifies the coffee's natural freshness, aroma, body, and acidity, resulting in a superior cup.

By eliminating the inconsistencies of drum roasting, Hot Air Roasting allows us to meticulously control every roast. This translates to perfectly consistent flavor profiles, ensuring you experience the same exceptional taste of Lugano Caffè espresso, every single time.

## Dynamic Mall Kiosk Solution

Become Our Agent... Scale Up!

Captivate mall visitors and exhibition participants with our modern and unique kiosk. This highly functional stand is designed to fit both small and wide areas, offering an impressive display of over 600 products to clients. Equipped with accounting software and a POS system, its standout feature lies in its easy assembly and disassembly. It's not just a kiosk—it's a dynamic sales solution!

## Premium Coffee Corner

Infuse your space with Italian allure and contemporary functionality. Our compact coffee corner seamlessly blends Italian style with modern design, transforming your home or office into a sophisticated environment.

## Easy Serving Espresso (E.S.E) Pods

The Flavor of Italian Inspiration  
Biodegradable for a Greener World

Lugano Caffè E.S.E. Pods are crafted using 100% biodegradable materials like paper and cornstarch. This ensures a guilt-free coffee experience, allowing you to savor delicious espresso while caring for the environment. Each pod contains a perfectly measured dosage of coffee ground for a constant and stable cup every day.

# Espresso & Coffee Machines

Modern Italian Styles & Strong Performance  
For All Purposes

- Elite Mini Espresso Machine
- UNO Espresso Machine
- L'idola Pro Fully Automatic Machine
- Premium Barista Machine Group 2

## Elite Mini Espresso Machine

The Elite Mini Espresso Machine is designed to meet the needs of people everywhere who love Italian espresso. Although its body is sleek and compact, it has enough power to make great single and double espressos. Enjoy this easily programmed machine that makes three drinks: Ristretto, Espresso, or Lungo Espresso. Comes in three different colors: black, white or red.

Voltage	220-240 V / 50-60 Hz
Body Material	Metal and Thermoplastic
Dimensions (width*depth*height)	10.5*33*23.3 cm
Weight	2.8 kg
Power	850 W
Control Panel	Frontal
Available Colors	Black, White and Red
Pump Pressure	19 bar
Heating Time	60 seconds
Safety Devices	Safety Fuse
Water tank capacity	0.8 L
Available Variations	E.S.E. Pods or Nespresso* Compatible Capsules
Diameter of E.S.E pod	44 mm
Tank Options	Transparent and removable

\*Nespresso is not owned by Lugano Caffè International company or correlated with its brands.

## UNO Espresso Machine

The UNO Espresso Machine is compact, sleek, and colorful, and it fits easily into your kitchen, workspace, or living room.

In addition to its stylish design and different color options, the UNO comes in two variations - with or without a steam pipe - to meet the various needs of users and baristas.

Voltage	220 V
Body Material	Metal and Thermoplastic
Dimensions (width*depth*height)	22*32*40 cm
Weight	6.5 kg
Power	650 W (basic) / 1900 W (vapor)
Control Panel	Frontal
Available Colors	Black, Dark Blue, Red, Green Purple & Yellow
Pump Pressure	15 bar
Safety Devices	Safety Thermostat
Water tank capacity	1.5 L
Diameter of E.S.E pod	44 mm
Tank Options	Transparent and removable

### L'Idola Pro Fully Automatic Machine

This superior bean-to-cup coffee maker gives you the enjoyment of easily grinding the coffee beans yourself and making over 20 fresh and aromatic coffee drinks.

With its 7" colorful LCD screen, WIFI feature, and Android system, l'Idola Pro Fully Automatic Machine is a smart coffee solution for medium and large company offices, self-service gas stations, hotels, events, and modern luxury homes and offices.

Its patented brewing unit, large capacity, auto-fill water system, self-cleaning mechanism, quick response time, and the ability to be simultaneously used for coffee and milk/foam make l'Idola Pro the ideal choice for your business.

Voltage / Frequency	220 V / 50 Hz - 240 V / 60 Hz
Body Material	Stainless Steel and Thermoplastic
Heating Power	1400 W
Pump Pressure	19 Bar ( Two heating systems)
Dimensions (width*depth*height)	391*506*581 cm
Weight	22 kg
Water Tank Capacity	6 L + Water tap connection
Beans Container Capacity	1000 g
Adjusting Height of Coffee Spout	100-160 mm
Length of Power Cord	1.8 m
N.W / G.W.	17 kg / 22 kg

### Premium Barista Machine Group 2

Developed primarily for large consumption and professional use, this unit is distinguished by its sturdy design and strong performance. The Premium Barista Machine comes with two pod units and is an ideal tool for large-scale and high-volume bars, pizzerias, restaurants, cafeterias, and fast-food restaurants.

Voltage	230 V / 50 Hz - 220 V / 60 Hz
Body Material	Stainless Steel and Thermoplastic
Dimensions (width*depth*height)	59*48*49 cm
Weight	40 kg
Power	2700 W
Control Panel	Frontal
Boiler Capacity	2 L
Diameter of E.S.E pod	44 mm
Water Tank	5 L
